

LAKE ONE CANOE RENTALS

OUTFITTING PACKING LIST

These are the items you will be bringing yourself:

- Rain gear. A 2-piece full body set is a must—it can be a plastic Stearns for about \$25. We don't recommend poncho style, as they don't cover very well and can be dangerous if someone tips their canoe.
- 2 pairs of footwear. If you will be taking Kevlar canoes, they need to be loaded 100% in the water, 100% of the time, so the first pair will be your canoeing pair that you are not afraid to get wet. They can be rubber boots or a heavy protective sandal. The sandal should not allow your foot to get poked by rocks (flip flops are not a good idea). The second pair will be for the campsite and can be any type of shoe.
- 2 shirts
- 2 pairs of pants
- Sweatshirt
- Swimsuit
- Hat or baseball cap
- Bath towel
- Camera & film
- Compass
- First-aid kit
- Fishing poles and gear, including a fish net
- Head lamps (these tend to work better than flash lights because you have 2 free hands)
- Pocket knife
- Sunglasses
- Sunscreen
- Whistle
- A personal pack, such as school bag or duffel bag, to keep your personal items separate from others' (will go into one of our gear packs)

LAKE ONE CANOE RENTALS

These are the items I supply:

- Bear rope
- Bug repellent (rub-on style with deet)
- Canoes (Alumacraft lightweights)
- Canoe chairs
- Comfortable paddle life jacket
